"COUNCIL OF THE WATERS"

(The Composers at the piano)

The Story

Once in the Springtime there was a gathering of the waters of the earth. "In what form have we best served and taught Man?" they asked of each other. "Let the Child judge," said the Ocean. "He will speak what is in his heart."

Then each form of water spoke in turn before the Child.

Said the Ocean: "In me Man has looked on might and majesty."

Said the Lake: "My serene waters have given him joy."

"I have shown him purity," said the Snow.

"Beauty," said the Fountain.

"Stillness," said the Mist.

"Resurrection," said the Rain.

"Creativeness and industry," said the River.

Then the Child standing on a hillside, suddenly stretched his arms to a little brook and cried out: "He is running away, my companion, my playmate. He who has taught me to laugh and sing; in whose song I have heard the words dearest to my heart: Springtime, morning, home. Wait! Wait!" And the Child ran after the brook.

"It is evident," remarked the Fountain, "that the biggest is not always the greatest."
